The Date

1 Learning LaTeX is Fun

I will outline why learning LaTeX is fun.

1. You get excited about becoming more productive / less stuck (Section 2)

2. You will be able to do aesthetic math/diagrams/plots/algorithms (Section 3)

1.1 Disclaimer

LaTeXerrors and midnight formatting frustrations can be a pain.

1.1.1 Anti-disclaimer

LaTeX is quite easy once you get the hang of it (except tables).

2 Productivity

Fiddling with TeX is frustrating. There is *nothing* worse then finish a submission or an assignment and then spending **four hours** on formatting issues, learning LaTeX helps avoid this.

3 Aesthetics

See Figure 1.

Figure 1: Nice one
